

An Art Deco Sapphire & Diamond Bracelet

£38,000

REF: 3410

Description

Having three emerald cut sapphires set in a typical Art Deco style, based on the interplay of geometric shapes. The contrast between the long baguette cut diamonds framing the almost square sapphires is offset by a multitude of round brilliant cut diamonds. This contrast between shapes and forms used to create a mosaic like texture to the bracelet. The sections of the bracelet are joined by diamond set links. Mounted in platinum.

English, circa 1935.

Accompanied with certificate.
